

Shafiya Kausar

AI Engineer · Data Scientist · Machine Learning Engineer

Paris, France — +33 7 59 21 86 37 — shafiya.kausar@aivancity.education

LinkedIn — GitHub — Portfolio — Medium

Profile

AI Engineer and Data Scientist passionate about transforming complex data into intelligent, real-world solutions. Specialized in NLP, multimodal AI, and predictive modeling, with hands-on experience building scalable, production-ready systems that deliver measurable impact. Known for combining strong analytical thinking with product intuition to design efficient, user-focused AI solutions. Seeking a full-time opportunity to contribute to innovative, high-impact projects in AI and data science.

Skills

Technical: Python, R, SQL, Flask

ML/AI: Deep Learning, NLP, Time-Series, Multimodal AI, Document Intelligence

Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch

Tools: Power BI, Git, MLflow, Docker, Google Cloud, Azure

Languages: English (Fluent), French (A1)

Professional Experience

AI Engineer — INSEAD, Fontainebleau	Dec 2025 – Present
- Designed and deployed an agentic RAG knowledge base for institutional data access. - Automated IT technician scheduling workflows, improving operational efficiency. - Developed a forecasting model (97% accuracy) for device lifecycle, repairs, and allocation.	
Research Assistant — Aivancity School for Technology, Business & Society, Paris	Jan 2025 – Jan 2026
- Developed pipelines for extracting text, images, and tables from PDFs. - Optimized multi-zone document intelligence systems for structured data extraction.	
Data Scientist — IntHealth, Paris	May 2025 – Jan 2026
- Built mood-to-genre NLP pipeline, increasing user engagement by 35%. - Delivered production-ready MVP integrating sentiment analysis with recommendations.	
Machine Learning Engineer Intern — CodeVeda (Remote)	Jul 2025 – Sep 2025
- Improved model performance by 12% through benchmarking and evaluation optimization. - Streamlined evaluation workflows and improved consistency of model metrics.	
Product Manager Intern — Propton, Bangalore	Jun 2025 – Sep 2025
- Defined and prioritized SaaS analytics roadmap, reducing delivery time by 20%. - Analyzed 1000+ user feedback entries to improve usability and product alignment.	
Data Scientist — AURA, Paris	Jan 2025 – Apr 2025
- Built CNN/RNN architectures for ECG data, improving seizure detection accuracy by 17%. - Automated preprocessing pipelines, increasing data throughput by 25%.	
Research Assistant (AI/NLP) — NeuralTeks, Paris	Sep 2024 – Dec 2024
- Integrated multimodal retrieval models achieving 0.82 mAP. - Improved embeddings via prompt optimization and semantic alignment.	
Assistant Manager Operations / Data Intern — AR Cars, Bangalore	Oct 2022 – Nov 2022
- Built Excel and Power BI dashboards for costs, logistics, and procurement tracking. - Increased sales by 37% through interactive dashboards improving stakeholder insights.	

Volunteer Experience

UN Volunteer — UI/UX Designer, Action Lab for Development (Remote)	Jan 2026 – Present
- Conducted hands-on UX testing of the MoralityCode ethical AI app, identifying 11 critical bugs and usability issues across the user journey. - Designed Before/After solution mockups with implementation specs for the developer team, covering input validation, navigation fixes, and flow improvements. - Classified all UI pages as mandatory or optional to establish a clear product structure.	
Food Distribution Volunteer — Linkee, Paris	Sep 2024 - Dec 2025

- Assist in collecting and distributing meals to people in need and refugees across Paris, contributing to the fight against food waste and food insecurity.

Food Collection Volunteer — Secours Populaire Français, Paris Feb 2024 - March 2024

- Collect surplus food from supermarkets for redistribution to vulnerable communities and refugees through the national solidarity network.

Projects

- **Resume Skill Extractor:** Flask app using Mistral API to extract and classify skills (95% precision).
- **Chess Piece Detection:** YOLOv5 model achieving 92% mAP.
- **Credit Card Analytics:** Power BI dashboards analyzing 50K+ records for revenue and spending insights.

Education

MSc AI & Data Science — Aivancity, Paris 2024 – Present

BSc Physics, Chemistry & Mathematics — Bengaluru North University, India 2020 – 2023

Certifications

- AI Product Engineering — UC Berkeley SCET
- Digital Transformation in Supply Chains — PMI
- Creating API Documentation — LinkedIn Learning
